AOBAKWE ROBYN P KENOSI
Software Developer

Portfolio: ARPK
github.com/pelonomiken
linkedin.com/in/arpk18

I am a proactive professional with hands-on experience gained through various initiatives, including a year-long membership at the BAC Francistown Digital Centre, participation in hackathons, involvement in industry projects, and a student industrial attachment. Since July 2024, I have been contributing to my current role, where I combine technical expertise with real-world experience to develop impactful solutions. I have a strong desire to learn and grow, embracing every opportunity for improvement. I remain undeterred by setbacks and continually strive to overcome challenges in a fast-paced, ever-evolving environment.

EDUCATION

Bachelor of Science in Computer Systems Engineering, *University Of Sunderland*   2023 — 2024
